

HELLO, I AM DOMINIC DEANGELIS

Sagittarius | 20 years old

ABOUT ME

Hello, I am currently a junior in college studying business finance. I am ultimately looking to start my own business going into this field. I would say I am very efficient in google slides using them in all kinds of ways for school and even outside of school. I did not start learning excel worksheets until being in college, but I do realize how helpful it can be especially if I take this position in my fraternity. To elaborate on that I am a part of a fraternity, Kappa Alpha. I want to take the position of treasure and deal with the finances of the fraternity.

FUN FACT

Every tuesday there are discounts on movies so every week me and my friends go to the movies. I learned how to solve a rubix cube in under a minute. Another fun fact about me is that I love to snowboard.

MY FAVORITE

I love to watch and play football. Some of my favorite music is country. I also love to play video games.
